PROFILE

Frontend Developer | Undergraduate student with hands-on project experience in Angular. Passionate about building intuitive and responsive web applications. Quick learner with a strong foundation in modern frontend technologies. Available to join immediately.

Technical SKILLS

- **Languages:** JavaScript, TypeScript, HTML5, CSS3, SQL, Python, C#, Java, Ruby
- **Frontend Frameworks & Libraries:** React.js, Angular, Ionic, Bootstrap, Tailwind CSS
- **Backend & APIs:** Node.js, RESTful APIs, JSON Server
- **Database:** MySQL (including SQL querying basics), PostgreSQL
- **Tools & Platforms:** Git, GitHub, Linux, Command Line

PROJECTS

Movie App – React.js

- Developed a responsive React application that fetches and displays movie data using a public RESTful API.
- Utilized React hooks (useState, useEffect) to manage component state and lifecycle events efficiently.
- Applied CSS3 for styling to create an intuitive user interface.
- Demonstrated ability to handle asynchronous API calls and dynamic data rendering.
- Tools: React.js, JavaScript, CSS3, RESTful API, Git
- **GitHub Repo:** <https://github.com/pujalakhe/Movie-App/>

Angular CRUD with JSON Server

- Built a CRUD application using Angular integrated with JSON Server as a backend to simulate REST API operations.
- Enhanced user experience with efficient data binding and responsive UI design.
- Tools: Angular, TypeScript, HTML5, CSS3, JSON Server, Git
- **GitHub Repo:** <https://github.com/pujalakhe/Angular-CRUD-with-JSON>

Course Mate – Course Recommendation System

- Implemented a content-based course recommendation system using Angular for frontend and Python for backend processing.
- Designed interactive UI components and integrated backend APIs for real-time data fetch.
- Tools: Angular, Python, RESTful APIs, HTML5, CSS3, Git
- **GitHub Repo:** <https://github.com/pujalakhe/CourseRecom-Frontend->

Mechanic App using Ionic Framework & Angular

- Created an app to manage customer and employee data, track visit history, and send servicing reminders.
- Demonstrated problem solving by designing data structures and workflows for effective record keeping.
- Tools: Ionic, Angular, TypeScript, RESTful APIs, Git

Mini Projects Collection

- Developed multiple mini projects using React, Angular, and vanilla JavaScript to enhance technical skills and understanding of web development fundamentals.
- Tools: JavaScript, React, Angular, HTML5, CSS3, Git
- **GitHub Repo:** <https://github.com/pujalakhe/Mini-projects>

ACHIEVEMENTS & HIGHLIGHTS

- Rapidly learned and implemented React.js to build dynamic, user-friendly web apps within weeks.
- Integrated RESTful APIs across multiple projects, improving data-driven UI interactivity.
- Proficient with Git for version control and collaborative software development.
- Applied creative problem-solving to implement efficient UI workflows and user features.
- Adapted quickly to new technologies including Ionic Framework and Tailwind CSS in project development.

ACADEMIC DETAILS

Bhaktapur Multiple Campus

Expected Graduation: 2025

Bachelor's Degree

- Bachelor of Science in Computer Science and Information Technology (BScCSIT)

Khwopa Higher Secondary School

2019

High School Diploma

- +2 Science

Dekocha, Bhaktapur

Khwopring English Academy

2016

School Leaving Certificate

Libali, Bhaktapur
